SECTION 2. DETAILS OF THE OFFER

2.1 The Offer

NWM is making a non-renounceable Entitlement Offer offering Eligible Shareholders 1 New Share for every 3 Shares held at the Record Date. The issue price of \$0.15 per New Share is payable in full on application.

The number of New Shares to which you are entitled is shown on the accompanying Entitlement and Acceptance Form. Fractional entitlements have been rounded up to the nearest whole New Share, and the amount payable has been rounded up to the nearest whole cent. Eligible Shareholders may accept their Entitlement, in whole or in part, by making payment via BPAY using the details on their Entitlement and Acceptance Form, or by completing their Entitlement and Acceptance Form and sending it to the Share Registry at the address on the back of the Entitlement and Acceptance Form together with payment by cheque, money order or bank draft so that it is received prior to the Closing Date.

You may also apply for Additional Shares as set out on the Entitlement and Acceptance Form.

Additional Shares will be allotted from any Shortfall at the sole and absolute discretion of the Directors in conjunction with the Underwriters. In the event that there are applications for additional shares in excess of the Shortfall, the directors intend to issue additional shares to Eligible Shareholders with holdings of less than 50,000 Shares in preference to other Eligible Shareholders.

The Directors also reserve the right to place any Shortfall in excess of the Underwriters' commitment within 3 months of the date of this Letter of Offer.

The Offer will open for receipt of acceptances on 5 September 2019.

The Closing Date and time for acceptances and payments is 5.00pm AWST 25 September 2019, subject to the Directors in conjunction with the Underwriters varying the Closing Date in accordance with the Corporations Act and Listing Rules.

2.2 Who is entitled to participate in the Offer

Every Eligible Shareholder who is registered as the holder of Shares at 5.00pm AWST on the Record Date is entitled to participate in the Offer.

2.3 Renounceability

This Offer is non-renounceable. This means that your Right to subscribe for New Shares under this Letter of Offer is not transferable. Any Rights not taken up by an Eligible Shareholder may revert to the Underwriter, be placed by the Company or lapse.

2.4 Issue of New Shares

NWM expects that the New Shares will be issued by no later than 2 October 2019 and holding statements will also be despatched on 5 October 2019.

Issues of New Shares under this Letter of Offer will only be made after permission for their quotation on ASX has been granted.

2.5 Refund of subscription monies

Subscription money will be held in a subscription trust account until the New Shares are issued. This account will be established and kept by NWM on behalf of each Eligible Shareholder.

2.6 Excluded Shareholders

NWM has decided that it is unreasonable to make the Offer to Shareholders who are not Eligible Shareholders (**Excluded Shareholders**), having regard to the number of Shareholders in such places, and the substantial costs of complying with the legal and regulatory requirements in all of those jurisdictions. This Letter of Offer and any accompanying Entitlement and Acceptance Form do not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer. Eligible Shareholders holding Shares on behalf of Excluded Shareholders are responsible for ensuring that subscribing for the New Shares under the Entitlement Offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will constitute a representation that there has been no breach of such regulations. Where the Letter of Offer has been dispatched to Excluded Shareholders, and where that country's Applicable Securities Law prohibits or restricts in any way, the making of the offers contemplated by the Letter of Offer, the Letter of Offer and the accompanying Entitlement and Acceptance Form are provided for information purposes only.

In particular, for holders in New Zealand, Singapore and Malaysia, this document is not a prospectus, has not been lodged with any Regulatory Authority and is not approved or recognised by any Regulatory Authority. It does not constitute an offer to the public and may not be used as such. New Shares are issued to you on the basis that you are an existing Shareholder of the Company and are able to receive and accept the Offer without contravening any Applicable Securities Law. Completion of an Entitlement and Acceptance Form by you is a representation to the Company that this is the case. You

may be prohibited from on-selling the New Shares issued to you and you should take advice on these issues before accepting the Offer.

SECTION 4. PURPOSE AND EFFECTS OF THE OFFER

4.1 Purposes of the Offer and use of proceeds

The key purposes of the Offer are to fund the Company's activities concerning its Arunta West IOCG Project and Bulgera Gold Project.

An estimate of use of the capital raising funds is as follows:

Action	Amount*
ARUNTA WEST – NORTH RC DRILLING - all exploration related costs including, holding, land access, plus administration	\$2,000,000
BULGERA GOLD - RESOURCE MODELLING OF HISTORICAL DATA WITH FOLLOW UP RC DRILLING - all exploration related costs including, holding, land access plus administration	\$690,000
BULGERA GOLD PROJECT DRILLING - RC and aircore exploration drilling of prospective targets away from historical mining	\$430,000
Costs of the offer	\$24,000
Total	\$3,144,000

**Amounts are necessarily estimates only and may vary. There is no minimum amount to be raised under the Offer. The Company may also use funds raised for other purposes should economic circumstances or business conditions vary.*

You should read the announcements made to ASX by the Company concerning its operations and this Letter of Offer in full before making any investment decision.

4.2 Capital structure

This table shows the number of issued New Shares at the date of the Offer and the potential total number of issued Shares at the close of the Offer.

Ordinary New Shares	Number
Issued Shares at the date of the Letter of Offer #	62,880,000
New Shares offered under this Letter of Offer *	20,960,000
Total maximum issued Shares on close of the Offer	83,840,000

This figure include all shares, including those held by Excluded Shareholders

** This figure, and the total number of issued Shares on the close of the Offer are necessarily approximate as the number of Shares issued will depend on the number of eligible Applications and individual Shareholdings will be rounded up when calculating entitlements.*

The above table assumes no Options are exercised to participate in the Offer. There are currently:

- 2,384,500 Series 1 \$0.20 Call Options expiring 7 September 2023
- 2,384,500 Series 2 \$0.25 Call Options expiring 7 September 2023

4.3

Effect of the Offer on the Control of NWM

It is not possible to predict with accuracy the full impact of the Offer on the control of NWM. There are various possible outcomes that may arise and these, in large part, will depend on the extent to which Eligible Shareholders take up their entitlements under the Offer and apply for Additional Shares, and the ability of the Directors to place Shortfall Shares.

NWM has obtained a commitment from its largest shareholders other than Australian Mines Limited (AUZ) to take up their entitlement in full, being \$1.712 million. AUZ has committed to take up 50% of its entitlement, being \$450,000. A further \$150,000 has been underwritten by the Underwriters. This means that:

- At least \$2.312 million will be raised under the Offer, and approximately 15.416 million New Shares will be issued;
- AUZ's interest, as the Company's largest Shareholder, holding approximately 28.6% of the issued Shares, will be diluted;
- The interests of other major Shareholders will stay the same;
- There will be no change of control of the Company.

If the Underwriters are able to take up the full Underwriting commitment of \$150,000, the impact on their respective Shareholdings in the Company will be as follows:

Name	Current securities holding	Underwriting commitment	Total maximum expanded holding *
Michael D Tilley	<ul style="list-style-type: none"> • 50,000 Shares • 437,000 options exercisable at \$0.20 • 437,000 options exercisable at \$0.25 	\$100,000	<ul style="list-style-type: none"> • 716,667 Shares • 437,000 options exercisable at \$0.20 • 437,000 options exercisable at \$0.25
Charles Schaus	<ul style="list-style-type: none"> • 10,000 Shares • 1,010,000 Options exercisable at \$0.20 • 1,010,000 Options exercisable at \$0.25 	\$50,000	<ul style="list-style-type: none"> • 343,3333 Shares • 1,010,000 Options exercisable at \$0.20 • 1,010,000 Options exercisable at \$0.25

* assuming total underwriting commitment is taken up

NWM investigated underwriting by third party underwriters however following confirmations from major shareholders concerning likely take up it was determined that the costs associated with an underwriting were high given the likely available shortfall. Third party underwriters were unwilling to charge a fee restricted only to the likely shortfall. The Underwriters however were willing to underwrite with no fee, and the underwriting gives the Company certainty of raising a significant total amount under the Offer.

If all other Eligible Shareholders take up their full entitlements, then each Eligible Shareholder's percentage ownership interest (and voting power) in NWM will increase slightly (given the number of Shares held by ineligible Shareholders).

If an Eligible Shareholder does not take up all of their entitlement, their percentage ownership interest (and voting power) in NWM will be diluted.

The proportional interests of Excluded Shareholders will be diluted because such Shareholders are not entitled to take up New Shares under the Offer.

SECTION 5. FINANCIAL INFORMATION

5.1 Financial position

NWM's cash reserves will increase by up to approximately \$3.144 million (before costs) following the Entitlement Offer, being the gross proceeds of the Entitlement Offer.

5.2 Tax considerations

The Directors do not consider that it is appropriate to give Shareholders advice regarding the taxation consequences of subscribing for New Shares under this Letter of Offer.

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Shareholders. As a result, Shareholders should consult their professional tax adviser in connection with subscribing for New Shares under this Letter of Offer.

SECTION 6. RISK FACTORS

There are risks associated with investing in any form of business and with investing in the share market generally. There are also a range of specific risks that may materially affect the performance of NWM and the value of the New Shares. Many of these risks are outside the control of NWM and cannot be mitigated in any way, although prudent management may partly minimise some of these risks.

This section identifies the areas the Board regards as the major risks specific to an investment in NWM.

6.1 Mining and exploration

Exploration and mining companies throughout the world are subject to the inherent risks of the minerals industry. The future viability and profitability of the Company as an exploration and mining company will depend on a number of factors, including but not limited to:

- Commodity prices and currency exchange rates are constantly changing;
- Risks inherent in exploration and mining include, among other things, successful exploration and identification of ore reserves, satisfactory performance of mining operations if a mineable deposit is discovered and competent management;
- Risks associated with obtaining the grant of any or all of the Company's mining tenements or permits which are applications, or renewal of tenements upon expiry of their current term, including the grant of subsequent titles where applied for over the same ground;
- Applications may also be subject to additional processes and requirements under the Native Title Act. The right to negotiate process under Native Title matters can result in significant delays to the implementation of any project or stall it. Negotiated native title agreements may adversely impact on the economics of projects depending on the nature of any commercial terms agreed;
- The risk of material adverse changes in the government policies or legislation of Australia affect the level and practicality of mining and exploration activities;
- Environmental management issues with which the Company may be required to comply from time to time;
- Poor access to exploration areas as a result of remoteness or difficult terrain;

- Poor weather conditions over a prolonged period which might adversely affect mining and exploration activities and the timing of earning revenues.

6.2 General risk

This section identifies the areas the Board regards as the general risks to any investment in securities:

- economic conditions in Australia and globally;
- investor sentiment in local and international share markets;
- changes in interest rates and the rate of inflation;
- changes to government regulation, policy or legislation;
- seasonal fluctuations in business;
- industrial disputes;
- share investment risk;
- liquidity and realisation risk;
- changes to accounting or financial reporting standards;
- political instability or war; and
- other economic and political risks.

NWM's future revenues and operating costs can be affected by all of the factors described above. Accordingly, the future profitability of NWM and price of any New Shares issued in relation to the Entitlement Offer may be affected by factors which are beyond the control of NWM.

The above list of risk factors is not exhaustive of the risks faced by NWM or by investors in NWM. Those risk factors, and others not specifically referred to above, may in the future materially affect the financial performance of NWM and the value of the New Shares.

Therefore, the New Shares to be issued under this Letter of Offer carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Shares.

public register is also used to facilitate payments and corporate communications (including NWM's financial results, annual reports and other information that NWM wishes to communicate to its security holders) and compliance by NWM with legal and regulatory requirements.

The Underwriting Agreement contains other terms imposing obligations on the Company which are usual for this type of agreement.
